WG10 Proposal:		**Assigned TF:**	UML modeling
Discuss in Upcoming Meeting:	No	**Target edition:**	Next
Short Proposal:			

Description

Clause 4.2 / Table 1 of Part 7-4 lists the abbreviations used in data object names.

In this list entries exist which refer to (parts of) former DO names. When removing DO / changing DO names of former versions, model managers of other Parts do not inform the Part 7-4 editor to delete the entries from the list.

The standard (and the web access datamodel) expose abbreviations which are not used any more.

Example: string "la" : 16 entries

Proposal descriptions

Set up an information channel between Parts and Part 7-4 to allow a clean-up.
