Description	
The present Server Certificate template in UCATestProceduresServer61850-8-1Ed2Amd1_Rev1p0.pdf specifies the version of the standard as: IEC 61850 Edition 2 Amendment 1 Parts 6, 7-1, 7-2, 7-3, 7-4, 8-1 [and 9-2 and IEC 61869 First Edition Part 9]. This is not technically correct because the amendment must be considered with the base standard (Ed2) Propose new text: IEC 61850 Edition 2 Parts 6, 7-1, 7-2, 7-3, 7-4, 8-1, and 9-2 as amended by AMD1 and IEC 61869-9 Edition 1.

- Closed Reason deleted (--Not Set--)

I agree with the Proposed Certificate change and suggest a similar change for the Edition text used in posting certificates to redmine.

#2 - 07/28/2021 10:39 AM - Michael Haecker

Propose another text to address the fact that individual amendments were published for each Parts 6, 7-1, 7-2, 7-3, 7-4, 8-1, 9-2.

Proposed text:

The server product has not been shown to be non-conforming to:

IEC 61850 Edition 2 with Amendment 1 of Parts 6, 7-1, 7-2, 7-3, 7-4, 8-1, and 9-2 and IEC 61869-9 Edition 1.

#3 - 07/29/2021 10:00 AM - Richard Schimmel

I propose:

IEC 61850 Edition 2 **with** Amendment 1 Parts 6, 7-1, 7-2, 7-3, 7-4, 8-1 [and 9-2 and IEC 61869 First Edition Part 9].

#4 - 09/08/2021 06:58 AM - Herbert Falk

The 61869-9 reference should be dated not First Edition Part 9. Something like 61869-9:2016 should be used or IEC 61869-9 Edition 1. First Edition is not correct terminology.

#5 - 09/10/2021 11:53 AM - Bruce Muschlitz

- Status changed from New to Resolved

As agreed 7-September-2021 by the UCAlug Test Procedure Working Group, Annex H of Ed2.1 Server Test Procedures Rev 1.1 has title "IEC 61850 Edition 2 with Amendment 1 Parts 6, 7-1, 7-2, 7-3, 7-4, 8-1 [, 9-2 and IEC 61869 First Edition Part 9]"

This can be updated to "... 61869 Edition 1.0]" at the next revision if needed.
