<b>Description</b> There are some subtypes of Curve (formerly CurveSchedule) where the documentation text is inadequate to understand how the curve or schedule is to be used. These are: AccountBalance EmissionAccount FuelAllocationSchedule	
<b>Proposed Solution</b> Work through the CIM Users Group to determine if anyone is using these classes and can provide more detailed documentation. If appropriate the classes may be changed to be subtypes of RegularIntervalSchedule or IrregularIntervalSchedule, based on the updated documentation.	
<b>Decision</b> 2010-12-08/LOO The classes AccountBalance and EmissionAccount are gone. FuelAllocationSchedule belong to production planning. In lack of a descriptive use case close issue. Move to informative.
