Description
There is clear spec on how to relate this String attribute to DAF/GDA/CIMXML ResourceID.

Proposed Solution
State explicitly that this attribute corresponds to DAF/GDA/CIMXML ResourceID. Then clearly specify the way to convert from CIM String to DAF/GDA/CIMXML ResourceID and vice versa.   20070502/LOO   Mapping of the CIM data types to implementations shall be made in profiles and not in the CIM.   Close issue

Decision
Refer to WG13_CIM_Issues_Report_20070508.doc   WG13/2007-05-08   2009-03-10: KLH - Needs to be handled in specific profiles, not the UML model. Close.
