Description

When IID file from ICT includes "mustUnderstand" attribute in <GSEcontrol> such as
<GSEControl desc="System Logical Device GOOSE Control Block 1" name="gcb01" datSet="ds_gcb1" confRev="10000" appID="AA1D1Q01KF1System/LLN0gcb01">
<Protocol mustUnderstand="true" />
</GSEControl>
where is the proper order to add <IEDName> attribute? Prior to it, or the next to it? In general case, bottom or top? If tool checks the appropriate attribute order according to schema, it could be issue.
