Breaking Change Description:		Origination ID:
CIM Impacted Groups:	WG13	Originally Assigned To:
Requestor:		

Description

The model and the documentation needs to clarify how the energy allocation to devices is going to be done based on the following use cases:

Normal value
Pattern data (season/day-type/day-time)
Schedule or forecast value
Situation (a given point in time, peak summer, max import etc)
Study (a set of situations that a set of predefined energy sources)

Proposed Solution

Assign to Energy Model Requirements Subgroup
