Description	
Proposed Solution IEC/PAS 62559: IntelliGrid methodology for developing requirements for energy systems	
Decision Added. A bigger question is if the entire Use Case Template section should be removed since it has been covered in 62559? See updates at Table A.1 & Section 2 [2017-10-26]: Remove the table that may contradictory to SyC template so need to remove. Other than that, let's keep the section. Action Item: Shawn to update accordingly. Need to post the 62559 on the Part-1 site. Issue can be closed (Richland Meeting) [2018-10-02]: IEC62559 added to reference list and also added in A.5 section in the Ed.3 CDV.
