

WG14 Part 1 Issues - CIM Issues #5172

Are profiles related to grammar/syntax or only to an abstract definition of CIM subset ?

01/12/2022 02:43 PM - Herbert Falk

Description	
Proposed Solution	
Need to update/align this with the latest effort on CIM Profile. Profile should be a subset of CIM. Currently XSDs delivered by Part-9 are viewed as "profiles".	
Decision	
Updated but still need discussion (page 8) [2017-10-26]: As described in 62361-103, Profile is defined as logical model which can be transformed into XSD or RDFS as Profile schema. Instance data conforms to profile schema. Need to reference 62361-103 and update the statement on Page 8. Updates are made and issue can be closed (Richland Meeting)
