Description

Proposed Solution

Shawn wants to put IRM on AWS Cloud, but for now the download site URL is included in Shawns presentation. (AWS Amazon Web Service). He has not checked using an IEC server for access. Action is for Shawn to send requirements for sharing documents using IEC hosted cloud services to Arnaud.

Decision

Wait for response from IEC (Arnaud Ulian) on the availability of an IEC server. [2017-11-07]: Part-1 team is happy with the current IRM model management, no need cloud server. Case closed.
