Description

For the balancing market, there is a need to identified a constraint duration

Proposed Solution

Add a new class ConstraintDuration in the MarketManagement package linked in 0..* to the TimeSeries. Definition: Duration constraint to activate, to put in operation, to deactivate, ... a given event. This class has the following attributes:

duration: "The duration of the constraint,"

type: "The type of the constraint,"

Decision

Agreed at WG 16 meeting
