<b>Requestor:</b>	
<b>Description</b>	
Add administrativeStatus attribute (String) in the MarketEvaluationPoint class [0..1]	
A Usage point may be connected, however the administrative Market Evaluation Point may not have any customer nor supplier. This means the energy consumed (e.g. when trying to get a buyer of an apartment) will be part of losses in the settlement. Then the (future) Energy supplier will be informed about this situation. Perhaps the former Energy supplier asked the DSO "please disconnect", but then the DSO decided to keep it connected, however then without any supplier associated with it.	
<b>Proposed Solution</b>	
Suggested definition: Specifies whether (or not) the Market Evaluation Point is active part of the imbalance settlement. Additional information: E.g., if still physically connected, but inactive in the market, the energy volume for the Market Evaluation Point will be part of the losses in the grid.	
<b>Decision</b>	
Add new attribute administrativeStatus to AccountingPoint class.	
<b>Release Notes</b>	
AccountingPoint attribute administrativeStatus added	

## History

### #1 - 08/08/2022 05:45 PM - Becky Iverson

- Status changed from New to Open

- Proposed Solution updated

### #2 - 08/17/2022 06:15 AM - Alvaro Marciel

administrativeStatus attribute already available in AccountingPoint class. Issue can be closed

### #3 - 08/18/2022 10:36 AM - Becky Iverson

- Decision updated

### #4 - 09/15/2022 04:02 PM - Becky Iverson

- Status changed from Open to In Progress

**#5 - 10/10/2023 05:34 PM - Becky Iverson**

- Status changed from In Progress to Review

- Solution Version set to iec61970cim17v34\_iec61968cim13v12\_iec62325cim04v15

- Solution Applied By set to Becky Iverson

- Completion Date set to 10/10/2023

- Release Notes updated

- CIM Impacted Groups WG16 added

- CIM Impacted Groups deleted (None)

**#6 - 10/13/2023 04:13 PM - Becky Iverson**

- Status changed from Review to Closed
