Description		
Add disconnectionContract attribute (Boolean) in the MarketEvaluationPoint class [0..1]		
<p>A DSO may have a contract with the customer that allows the DSO to disconnect the customer for special reasons. Informing the Energy supplier that there is such a rule in a contract with the DSO, will for instance be an indicator that this Market Evaluation Point can be used as a (part of a) reserve resource. The Energy supplier may then also add to his own contract with the customer that the market evaluation point can be disconnected.</p> <p>The same attribute may also be used to inform the DSO that the Energy supplier now has a contract that the UsagePoint can be disconnected (when for instance the price goes over a specific limit).</p>		
Proposed Solution		
<p>It has been suggested to add this attribute to the MarketAgreement class, but it is information more related to the MarketEvaluationPoint itself.</p> <p>NOTE: if added to MarketAgreement, an association would be needed from MarketEvaluationPoint.</p> <p>Suggested definition: Indicates if there is a contract at the MarketEvaluationPoint for disconnection as a result of the demand side management or the load management for the MarketEvaluationPoint. The element is Boolean and is used for both gas and electricity.</p>		
Decision		
New attribute flexibilityContract to the AccountingPoint class.		
Release Notes		
AccountingPoint attribute flexibilityContract added		

History

#1 - 08/08/2022 05:45 PM - Becky Iverson

- Status changed from New to Open
- Proposed Solution updated

#2 - 08/17/2022 06:13 AM - Alvaro Marciel

Disconnection method attribute available in MarketEvaluationPoint class. Issue can be closed

#3 - 08/18/2022 10:45 AM - Becky Iverson

- *Decision updated*

#4 - 08/18/2022 11:07 AM - Jan Owe

Typing error in the previous note, the name of the attribute was changed to flexibilityContract, see Decision.

#5 - 09/15/2022 04:05 PM - Becky Iverson

- *Status changed from Open to In Progress*

#6 - 10/10/2023 05:39 PM - Becky Iverson

- *Status changed from In Progress to Review*

- *Solution Version set to iec61970cim17v34_iec61968cim13v12_iec62325cim04v15*

- *Solution Applied By set to Becky Iverson*

- *Completion Date set to 10/10/2023*

- *Release Notes updated*

- *CIM Impacted Groups WG16 added*

- *CIM Impacted Groups deleted (None)*
