Description	
Associate the class MarketEvaluationPoint with the FlowDirection class (many-many-association).	
FlowDirection will (in coded values) tell the if the MarketEvaluationPoint is used for Production, for Consumption or both. A MarketEvaluationPoint can over time have different FlowDirection. And a specific FlowDirection is valid for several MarketEvaluationPoints. Compare with MR ebIX (2019/3) above.	
Proposed Solution	
See figure.
