Description Proposal for a new specialized type of Agreement called ContractResourceCertificationAgreement and an association to ResourceCertification.	
Proposed Solution Addition of a new class to specify the agreement details for a ResourceCertification. The new class would have an association to the ResourceCertification class which would allow zero to many ContractResourceCertificationAgreements to be associated with each ResourceCertification. ContractResourceCertificationAgreement inherits from Agreement. Description (A specialized agreement that represents the contract between the Resource Owner/Operator and the grid operator for delivering grid services specified by the ResourceCertification.) Association ResourceCertification 0..1 -> 0..many ContractResourceCertificationAgreement	
Decision 02/17/2022: Team agreed to add new class and association.
