<b>Description</b>		
Request for an association between AccountingPoint and DateAndOrTime		
<b>Proposed Solution</b>		
The usage for it is to provide dates associated to a AccountingPoint. E.g. the date when a future supply switch will occur or other dates important to inform about, but perhaps not directly part of the message exchange itself (for instance you would have dates associated to the event that is described in a message for that event, but in other future messages that date is then just associated with the AccountingPoint, and not with the old event that is not mentioned in this new exchange).		
<b>Decision</b>		
3/24/2022: Planned to be modeled in MarketManagement package.		
<b>Release Notes</b>		
MarketEvaluationPoint association to DateAndOrTime added		

#### History

##### #1 - 08/08/2022 06:01 PM - Becky Iverson

- Status changed from New to Open

##### #2 - 08/12/2022 03:34 AM - Alvaro Marciel

Issue can be closed. An association was added between MarketEvaluationPoint and DateAndOrTime. This way both accounting point and exchange point inherit that association.
