<b>Description</b>	
Clause 4.2 / Table 1 of Part 7-4 lists the abbreviations used in data object names.	
In this list entries exist which refer to (parts of) former DO names. When removing DO / changing DO names of former versions, model managers of other Parts do not inform the Part 7-4 editor to delete the entries from the list.	
The standard (and the web access datamodel) expose abbreviations which are not used any more.	
Example: string "la" : 16 entries	
<b>Proposal descriptions</b>	
Set up an information channel between Parts and Part 7-4 to allow a clean-up.
