IEC 61850 TPWG - Issues #6751

Update IEC 61850 QAP Addendum for adding requirement quickly

04/02/2024 09:21 AM - IEC 61850 TPWG

Status:	Resolved	**Due date:**	04/16/2024
Priority:	Normal		
Assignee:	Joel Greene		
Category:			
Target version:			

Description

reference: https://redmine.ucaiug.org/issues/6710#change-7138

Device was submitted for testing that does not handle Mod/Beh correctly, but in a manner that is not currently tested.

As this is unanimously agreed to be wrong behavior and an interop problem, we need a process to push this test out quickly.

History

#1 - 04/02/2024 02:40 PM - Herbert Falk

- File Immediate Issue Adoption Process.docx added

- Subject changed from Update QAP for adding requirement quickly to Update IEC 61850 QAP Addendum for adding requirement quickly

#2 - 04/16/2024 08:16 AM - IEC 61850 TPWG
