Description

Feedback on draft IEC 62746-4 recommend the following attributes:

- type
- energyDownRampRate
- energyUpRampRate
- maximumResponseTime

be elevated from RegisteredDistributedResource to RegisteredResource since "these attribute are needed for more than RegisteredDistributedResource."

History

#1 - 04/30/2024 07:48 PM - Todd Viegut

- Project changed from CIM Issues to Market Operations

Per Scott's request migrating this to WG16 redmine.
